

Expolinc Magnet Frame

A double-sided frame for rollable, easily transported panels. The graphic is mounted securely in just seconds through magnetic force, and a discreet aluminum strip frames it.

Magnet Frame is a robust system that is quick to assemble and anchor to the Panel Base. It is delivered in a protective cardboard tube.

Available sizes

(width x total height)	(panel size)
400x1600 mm	400x1535 mm
400x1800 mm	400x1735 mm
610x1600 mm	610x1535 mm
610x1800 mm	610x1735 mm

Expolinc Panel Base

A floor-standing double-sided display system that keeps all rigid board materials up to 18,5 mm in a firm grip. The panel stands straight and stable after fast, easy installation - no drilling required - secured by the foot's grip, so strong that the whole system can be lifted holding the panel.

The natural anodized aluminum surface is insensitive to dust and easy to keep clean. Synthetic rubber feet give the system a light floating expression and protects the floor from damage.

Panel Base is also used as the base for Magnetic Frame. It is delivered in a cardboard box.

Available sizes

(width)
80 mm - sold in pairs
400 mm
610 mm
